Orpha P. Montillano-Corrado, MD
License No. 87047
PTR NO.

Name	SANGALANG, SHIRLEY BELWA		
Date of Birth	3/31/1979	Age / Gender	46 / F
Patient ID	337239	Accession Number	15848284
Examination	3D MAMMOGRAPHY WITH TOMOSYNTHESIS	Study Date / Time	7/21/2025 9:15 AM
Patient Class / Room#:	Outpatient /	Referring Physician	WALK-IN, DOCTOR

3D MAMMOGRAPHY (TOMOSYNTHESIS)

CLINICAL DATA: asymptomatic
COMPARISON: none

FINDINGS:

Cranio-caudal and oblique views show heterogeneously dense parenchymae, which may obscure small masses. Obscured oval densities are seen **bilaterally**. There is no architectural distortion or asymmetry delineated. No evident microcalcifications particularly suspicious, irregular, linear or branching forms. Axillary areas and overlying skin are unremarkable.

ASSESSMENT / RECOMMENDATION:

Obscured oval densities, bilateral. Breast ultrasound is suggested for verification and characterization.

BIRADS CATEGORY - 0

BIRADS CATEGORY:

- CATEGORY 0 - Needs Additional Imaging Evaluation
- CATEGORY 1 - Negative
- CATEGORY 2 - Benign Finding
- CATEGORY 3 - Probably Benign Finding: Short Interval Follow-up Suggested
- CATEGORY 4 - Suspicious Abnormality: Biopsy should be considered
 - 4A - Low suspicion for malignancy
 - 4B - Intermediate suspicion of malignancy
 - 4C - Findings of moderate concern, but not classic
- CATEGORY 5 - Highly suggestive of malignancy: appropriate action should be taken
- CATEGORY 6 - Confirmed malignant by biopsy prior to definitive therapies

Note: A negative X-ray report should not delay biopsy if a dominant or clinically suspicious mass is present (8% - 15%) of cancers are not identified on mammogram
Cancer Society Guidelines: Yearly mammogram 40 yrs. and above.
